

## SARILING SIKAP – BENGUET STATE UNIVERSITY

One of the major programs of the university to ensure food on campus through sustainable agriculture or farming is the *Sariling Sikap* (University-based Food Security). In this program, university employees can rent a land from the university to conduct sustainable agriculture (as shown in Figure below). In addition, they can partner with the local community to help them in managing the agricultural activities (as shown in Table below).

The relocation the University Business Affairs (UBA) sector, relocating almost all of its Income Generating Projects (IGP) to Lot 12 (Betag and Swamp Area) is expected to bolster earning capacity because the area is being primed as a top tourist destination area of La Trinidad.
